New skincare to Uber...here is a range of products from Restylane. A unique range of topical anti-ageing skincare products and the result of extensive research... provide you with beautiful skin which complements our non-surgical treatments (dermal fillers and wrinkle relaxing).

The secret to beautiful skin has always been balanced hydration together with a healthy and protective skin barrier. Restylane Skincare combines these two essential qualities in an innovative skincare range. Restylane Skincare protects hydrates and nourishes the outer and upper layers of your skin to provide it with a healthy, glowing radiance.

The Restylane Skincare products have been produced to improve skin health function using a combination of proven technologies and scientifically proven active ingredients. The result is a range of products with high biocompatibility with the natural structure of our own skin. All products, with the exception of the cleanser, contain a unique form of Stabilized Hyaluronic Acid produced by patented and proven NASHA™ technology, which has been embedded into a very special lipid network.

This unique combination provides your skin with proven protection and added hydration leaving it looking radiant and feeling silky smooth.

Recover Cream: *Contains a unique form of Stabilized Hyaluronic Acid produced by patented and proven NASHA™ technology, which has been embedded into a very special lipid network.*

This unique combination provides your skin with proven protection and added hydration leaving it looking radiant and feeling silky smooth. Restylane Recover Cream contains arnica, which reduces swelling and bruises. Long-chained saturated lipids from rice bran help restore the antioxidant shield function of the stratum corneum.

Restylane Recover Cream - 25ml **£19.00**

Facial Cleanser: *Cleanse your skin with Restylane Facial Cleanse.*

Each time you cleanse your face you risk stripping your skin of essential lipids, anti-oxidants and water-binding substances. Therefore cleansing procedures must be as mild and gentle as possible to preserve the health and natural balance of your skin.

Restylane Facial Cleanser has been enriched with organic oils and ceramides to make your skin soft and supple. Restylane Facial Cleanser cleanses skin and removes make-up gently and efficiently without upsetting the skin's natural protective barrier.

Restylane Facial Cleanser - 100ml **£21.50**

Day Cream: *Protect and hydrate your skin with Restylane Skincare Day Cream.*

Restylane Day Cream is a moisturiser suitable for all skin types. The DMS lipid structure in Restylane Day Cream means it has a high biocompatibility with your own skin, which helps build up the skin's natural protective barrier to reduce water loss and withstand premature ageing. Restylane Day Cream contains active ingredients that improve the skin's own detoxifying ability, resulting in soft and healthy skin. The addition of stabilized hyaluronic acid enhances the long lasting moisturising effect of the cream.

Restylane Day Cream - 50ml **£41.50**

Night Serum: *Restylane Night Serum is a very rich and active microformulation.*

Restylane Night Serum contains a very high dosage of retinol in a stable and highly absorbable form. Retinol is one of the most effective active ingredients for reducing wrinkles and age spots as well as counteracting loss of elasticity.

The serum also contains a high dose of antioxidants. Antioxidants are considered to be beneficial in slowing down the ageing processes in the body.

Restylane Night Serum - 15ml **45.95**

Restylane Night Cream:

Contains active ingredients that help counteract the skin's ageing process whilst protecting the natural balance and beauty of your skin. As the cream is very similar to the skin it helps build up your own protective skin barrier and allows your skin to breathe and recover at night.

Restylane Night Cream enhances your skin's natural functions in as little as four weeks resulting in a beautiful and soft complexion.

Restylane Night Cream - 15ml **£41.50**
