

Uber Beauty Specialist Treatments

- IPL – For hair reduction, photo rejuvenation, thread veins, pigmentation, acne & rosacea

(IPL) represents a new development in Permanent Hair Reduction. IPL is a safe, painless and permanent method of hair reduction where a handset is placed onto the area to be treated and a light based energy pulses a quick flash of light. The skin remains unharmed, while the hair follicle is destroyed.

A course of 10 -12 treatments is necessary once every 4 - 6 weeks.

Hair growth and skin type, of the area to be treated as well as your suitability of treatment will be established during your consultation. A patch test will be given during this session and individual prices will be discussed.

Permanent Hair Reduction prices per session:
