

Uber Beauty Specialist Treatments

- Dermal fillers, Wrinkle Relaxing (B-Tox), and Chemical Peels

Unlike other Facial Aesthetic Providers, you are our 'client' and not a 'patient', by removing that barrier that most practitioners' offer, our 'clients' come back to us, time after time, after time...

Have you found it almost impossible when comparing prices: they are not listed, thus forcing you to call them, or offering free consultations and when you get there you find that it is too expensive and you have wasted your time – yet again...

Here, at Uber Beauty we do not have a problem with showing you our prices before your consultation, before you even speak to us...we have nothing to hide, no hidden extra's, we just prefer offering an excellent service, with the highest level of expertise and knowledge...

We do not charge for consultations either, and our unique pricing guide gives you no hidden extra's when researching your costs, thus providing you, our clients with the most excellent value for money.

Always a 'valued client' never a patient...

Uber Beauty Dermal Fillers

We use two market leaders, which are 'tissue tailored' to make it, as close to the area we are to treat; Hydra Fill and Restylane. Both are non-animal and replenish the bodies own natural Hyaluronic Acid which declines as we age.

The distinguishing factor of these products is the gel particle size, which is tailored to make it as close to the ideal for its intended application.

Dermal Fillers:

Between Eyebrows - (the 11's – Glabella lines) £180.00
Lip Contouring/Augmentation (outer edge plumping) £310.00
Lip Lines (bleed lines) £290.00
Marionette Lines – (corners of mouth which droop) £210.00
Light Nose to mouth lines - (slight creases, folds or lines) £310.00
Deep Nose to mouth lines - (very deep creases or folds) £350.00
Individual line softening £130.00

Combined treatments

(add the treatment prices together, and then deduct 20% of the lower priced treatment)

Cheek contouring

(gives the effect of a cheek lift and defined bone structure) £350.00

Eyebrow Liftinging

(provides a temporary lift to the upper eyelid area via the brow) £320.00

Dental block (pain management) FREE

Uber Beauty Wrinkle Relaxing/Line Taming

Our Qualified Facial Aesthetic Practitioner will undertake your treatments at our clinic. Alternatively, as home treatments are sometimes a preference for our clients, or for those who cannot come to us ie: because of disabilities, or if you would rather be in the privacy of your own home, this can be pre-arranged.

Molly Hanson-Steel has the highest degree of expertise in facial aesthetics, and in the structure of the face, facial anatomy and physiology, teaching within colleges, salons, spa's to therapists, doctors and nurses. As part of her very extensive teaching sessions, she has lectured in some of the most well known colleges within the North West, where she teaches students about the skin structure and its appendages, blood circulation, and lymphatic system, muscles, nervous system, and bone structure. All which are very important when undertaking in any facial non-surgical treatment. Having an extensive knowledge of all aspects of facial anatomy is essential in making judgments about the aesthetic outcomes of any non-surgical injections. You can be certain, that you are in very good hands!

Wrinkle relaxing/Line taming:

1 Area £180.00

2 Area's £250.00

3 Area's £290.00

Additional Area's £30.00

Supplements for men £40.00

Special offer for the summer, normally £450... Hyperhidrosis (to stop underarm sweating) £350.00

'My experience has shown that non-surgical injections are best made in fully prepared skin that is as resilient and as elastic as possible - so why not plan to have your injections a week or so after one of our micro-dermabrasion or chemical peel treatments'? For example, a mild strength Glycolic or Lactic Acid peel will achieve high levels of skin resurfacing as well as stimulating the collagen and elastin formation, thus promoting rejuvenation that will facilitate the placing of the injections. These sorts of peels normally require no recovery time – they are 'non-ablative', which means that usually you will not visibly shed skin - and will leave your skin feeling clean, soft, smooth and refreshed'.

For information on our more 'advanced TCA, Glycolic, Pyruvic or Retinol peels', please see 'chemical peels' in our specialist section.
